A Trenton man, 34 year old Ronald Gibson, was taken to a Kansas City hospital after being injured in a Harrison county traffic accident on East 260th Avenue.

The highway patrol described injuries as serious for Gibson.

He was taken by ambulance to St. Luke's Hospital following the Tuesday night accident, three miles north of Blythedale.

The patrol said Gibson was southbound when his pickup went through a T-intersection, left the road, went down a steep embankment into a creek, then struck the opposite side of the bank before coming to a stop. The truck received extensive damage. The patrol said Gibson was not using a safety device.
