A Bethany man was killed in a traffic accident after being ejected from his vehicle.

The highway patrol identified the victim as 34 year old Jordan Langfitt of Bethany.

The patrol said Langfitt was southbound on Harrison County Route W yesterday afternoon when his car failed to negotiate a curve. Langfitt over-corrected to the north.

His car crossed the center line traveling into the grass on the north side. The driver then over-corrected to the right with the car returning to the roadway where it overturned throwing the driver out. He was pronounced dead at the scene.

The report said Langfitt was not wearing a seat belt. His car was demolished in the accident that occurred one mile north of Bethany.
