Jamesport Tri-County Board of Education members have approved for a trial period to allow two additional bus stops within the city limits.

The extra bus stops are along existing routes. The stops are to be in the afternoons only next month. It was noted the additional bus stops may be terminated for safety concerns at the discretion of the administration. The trial period runs from December 2nd until the 20th.

The school board last week approved dual credit classes as presented; declared a "finish" mower as surplus property and priced it at 12-hundred 50 dollars; and accepted the annual school audit. Two fund raising requests were approved. Future Business Leaders of America will sell candy bars and will hold a volleyball tournament next April. The board also met in executive session with no action taken.

Board of education candidates can file during regular school hours at the Jamesport Tri County school from December 17th through January 21st.
