SW Grundy County Under Boil Water Advisory

Health Advisories

The Grundy County Public Water Supply District has issued a precautionary boil advisory for customers in southwestern Grundy County.

It affects customers west of the Thompson River who also are south of Routes 190 and 146.

The boundaries of the boil advisory are Routes 190 and 146 on the NORTH, the Thompson River on the EAST, the Livingston County line on the SOUTH, and the Daviess County line on the WEST.

The boil advisory for drinking and cooking water is effective until Friday afternoon at 1 o'clock. It was caused by a broken water main that has been repaired. The break occurred about 20 feet from a broken main earlier this month.
