Fire Saturday afternoon destroyed the cab and engine of a combine one mile south of Spickard.

Spickard Fire Protection District training officer, Jesse Richman, reported the combine was being used, and during a change in drivers, a pop was heard. It was followed by flames. The pop was believed to have come from the engine area.

The owner of the combine is Fred Brewer of Spickard.

Firefighters were on the scene about 30 minutes with no injuries reported.
