A Hale resident was hurt when the pickup truck he was driving slid off a road in northern Carroll County, hit an embankment, and overturned.

62 year old Donald Wilson was taken to Hedrick Medical Center at Chillicothe with what the highway patrol called serious injuries.

The accident was late Friday morning on Route U in northern Carroll County. The patrol said the eastbound pickup went out of control on the icy road, slid off the left side of the road, hit an embankment, and overturned.

The pickup was extensively damaged.

The patrol said Wilson was not wearing a seatbelt.
