Grundy County sales tax receipts this calendar year were down less than 1% compared to last year. Grundy County's calendar and fiscal year follow the same January through December period.

Although sales tax revenue for the year was down slightly, nearly all of the decline is because of the first part of the year. Receipts in 4 of the first 5 months were less than during the same period a year ago.

However, sales tax receipts in 6 of the past 7 months were greater than the corresponding period a year ago.

As a result, income from each of the County's 3 sales taxes for the entire year, was down about \$2300. Combined, that's nearly \$6900.

The 3 sales taxes are called general revenue, ambulance, and law enforcement. Each had receipts this year of more than \$452,000.
