A diabetes education program will be presented at the Grundy County Health Department in Trenton the night of March 17th.

The program is free to the general public. No pre-registration is required unless persons wish to have an individual appointment with the program presenter---Jana Curry. Appointments can be made by contacting the Grundy County Health Department in Trenton.

The diabetes education program is the night of March 17th at 6 o'clock in the Community Room on the lower level of the County Health Department at 17th and Lincoln in Trenton. The Health Department says a focus of the presentation is to be Carb Counting.
