The Livingston County Sheriff has released a report of recent activities. These include a variety of incidents, among them, a party, which suggests underage drinkers, as well as a report of those being transported to the Mo. Department of Corrections.

Taken Directly From Their Press Release:

June 19 we completed an investigation of a reported simple assault and unwanted touching toward a female. All persons have been interviewed and a report is being submitted to the prosecuting attorney for consideration as the allegation lacks any additional evidence.

June 17 LCSO staff assisted the Missouri State Highway Patrol and Chillicothe Department of Emergency Services with a crash at the Utica Junction.

June 17 an investigation of alleged theft of \$2,800 was completed. On June 18 we arrested Daynia Marilyn Bryant, 27, Chillicothe for the alleged theft. Ms. Bryant is currently in the DDCRJ in lieu of bond.

June 17 we began an investigation of alleged trespassing and property damage near 13000 block Liv 536. Unknown person(s) drove through a muddy bean field causing damage to the crops. Investigation continues.

Around midnight on Sunday morning the LCSO and MSHP responded to a location north east of Chillicothe near Medicine Creek regarding a call of a possible altercation, accident and youth alcohol party. The officers reported that many people fled upon the group realizing law enforcement was present. The agencies spent approximately 3 hours on scene attempting to locate those in attendance, determine if anyone was injured, had been assaulted or in an accident, obtaining names of all present, administering PBTs (preliminary breath tests) where applicable, contacting parents and releasing young people to their parent(s) and collecting information/evidence for any necessary future criminal charge(s) such as supplying intoxicants to minors. One vehicle was towed from the roadway that had been left in a bad location and keys were not located to move it.

This week we completed an investigation of possible Peace Disturbance which allegedly recently took place near 2nd and Washington Streets. Not everyone would speak with the investigating deputy but a report is being submitted to the Prosecuting Attorney for review. Our office was requested to investigate this incident.

The officers noted most people were cooperative but not everyone was overly forthcoming with information as to who may have been involved. However additional investigations are continuing at this time.

Providing alcohol to or even hosting a youth alcohol party can get someone a significant amount of jail time for each minor consuming or in possession.

June 15 a deputy investigated damage to a vehicle on U.S. 36 as the passenger car struck debris in the roadway after a semi-tractor blew a tire. Damage was noted to the vehicle and the semi driver
