Daviess County Route J is to close on Tuesday, May 29th at the Dog Creek Bridge three miles south of Altamont. It is for a bridge replacement project that is expected to take about six weeks. The construction is part of Missouri's Safe and Sound Bridge Improvement program. That program includes the replacement or repair of 15 bridges in Daviess County and 190 in the northwest and north-central parts of the state by the end of 2013. Thirteen of those 15 bridges in Daviess County have already been completed.
