North Central Missouri College Director of Development Steve Maxey says just one week remains for the purchase of personalized bricks for the "Welcome Sign" at the Elizabeth and Arthur Barton Farm Campus.

Nearly 500 bricks have been sold, and the first shipment has arrived. College officials are hoping to submit a second order of bricks on Friday, June 1st.

Bricks are available for \$100.00 each, and may include up to three lines of names.

The sign will be placed on the south side of the Barton Farm Campus entrance. It will include landscaping, flags, and a terrace area for seating.

Money from the sale of bricks will pay for the construction of the sign and support the construction of the Barton Farm Campus.

Order forms are available at the NCMC Foundation office in the Frey Administrative Center. They are also available from the college's website (www.ncmissouri.edu) via the "Alumni and Friends" section.
