The Missouri Department of Transportation says Highway 46 in northwestern Harrison County will be closed near Route YY for a bridge replacement. The bridge is over the West Fork of Big Creek. The closure, beginning on Monday, June 25th, will last six to eight weeks.

The project is part of Missouri's Safe and Sound Bridge program. Under that program, Harrison County has 25 bridge replacement or repair projects (the most of ANY county in the state). This is the FINAL bridge to be completed in Harrison County.
