The street overlay project for Iowa Boulevard in Trenton has been rescheduled for (Tuesday) and Wednesday. Street Supervisor Larry Griffin reports a new electric motor has been obtained for the asphalt plant following Monday morning failure of an older motor. That failure prompted Griffin to announce a postponement on the closing of Iowa Boulevard for the overlay project.

As was announced before, Iowa Boulevard will be closed to through traffic beginning at state Highway 6. That road is to be closed Tuesday and Wednesday from 6 am until 6 pm. Persons with residences along Iowa Boulevard will be allowed access during the two-day period. The public traveling to Wright Memorial Hospital, as well as employees, are asked to use the south access road off U.S. Highway 65.
