A Milan couple and two young children were injured last night when their sport utility vehicle traveled off State Highway 6 east of Milan and overturned. The Highway Patrol described injuries as serious for all four occupants.

The driver was 28 year old Rodolfo Francisco. Passengers were 25 year old Juana Francisco; and two boys: three year old Darinel and infant Oscar Fransisco.

The three year old was flown by medical helicopter to University of Missouri Hospital in Columbia while the others were taken by ambulance to Northeast Regional Medical Center in Kirksville.

The patrol report indicated just the two children were in safety devices. The S-U-V was demolished in the accident five miles east of Milan.
