A veterans service officer is looking for drivers from the Trenton area to receive training to operate a shuttle van that will be based in Trenton.

The van, as announced late last week, will be used to transport veterans to regional V-A facilities. Wayne Kleinschmidt said once enough volunteers come forward, a group can be car-pooled to Kansas City to receive the training FREE of charge.

The training is completed in one day. Persons interested in being a driver of the V-A shuttle van are to contact Wayne Kleinschmidt of Trenton. Phone 359-2078.

Drivers do not have to be a veteran but they will be required to pass a physical. Once enough drivers are trained, Kleinschmidt indicated the shuttle bus can be brought to Trenton and be available for transporting free of charge local Grundy county and area veterans who go to V-A facilities in Kansas City, Columbia, Kirksville, Des Moines, and Leavenworth.
