A Stanberry woman received what the Highway Patrol called MODERATE injuries in a Gentry County rollover accident on Wednesday morning. The Highway Patrol said 54-year old Vicki Eiberger was taken by ambulance to Heartland Regional Medical Center in St. Joseph.

She was westbound on Highway 48 when, according to the Patrol's investigator, her car traveled off the north and then the south side of the highway, then striking and embanking and overturning, coming to rest on its wheels.

The car was demolished in the 10:45 accident (Wednesday morning), two miles to the west of King City. The report noted that the driver was NOT wearing a seat belt.
