Trenton Police are investigating a "first degree burglary" incident from early Saturday evening in the 1600 block of Merrill. Police Chief Tommy Wright said a white female reported hearing someone in her home, and a short time later upon entering the residence, she encountered a man inside. That man has been accused of striking the woman on the head, which knocked her out, and then fleeing with a laptop computer. The suspect is described as **tall**, **white**, **and a middle-aged man with long hair**, **wearing a blue shirt**, **and blue jeans**.

Chief Wright said some evidence was recovered at the scene and the investigation into this weekend burglary is continuing.
