A couple that owns Lace Image Photography in Unionville say they lost everything, including their cameras, two computers, and photographs in a building collapse on the Unionville square early Monday morning.

Lacy and Ian Gilworth were notified of the collapse at 4 o'clock on Monday morning. Unionville officials indicate that the collapse itself occurred at 3 o'clock.

The building, which went up on the Unionville Square in the early 1870's, was located on the corner of 17th and Main Street. No one was injured in the collapse. A cause has not yet been determined.
