## KTTN/KGOZ Streaming Servers Moved

**BULLETIN!**

Posted on: 2013/5/1 4:22:44

The KTTN and KGOZ Streaming service that is used has been moved to a new data center. This means, new (IP addresses) have been assigned to our machines at the data center.

This may take a few days to filter out over the internet and return our servers to being back "On Air."
