A teenager from Kingston received what the Highway Patrol called SERIOUS injuries in an accident at Kingston on Sunday afternoon.

Eighteen-year old Cody Carr was flown by medical helicopter to Truman Medical Center in Kansas City. The accident involved a truck that was parked in the driveway of a residence. The Patrol said the transmission came out of gear, causing the truck to roll backwards. Carr attempted to stop it, but had the vehicle roll over the top of him. There was no damage to the truck.
