Just one appointment was made for a meeting with the Grundy County Board Of Equalization next Monday regarding concerns about property assessments.

JB Wright Memorial Hospital has an appointment regarding the doctor's office at the hospital in Trenton.

The three county commissioners, plus citizens Marlissa Klinginsmith and Debbie Carman, are to serve on the board of equalization. Those same persons also comprised the board of equalization last year.

Monday was the deadline to schedule a meeting with the Grundy County Board Of Equalization.

JB Wright Memorial Hospital last year appealed the local tax assessment on the doctor's office to the Missouri state tax commission. No hearing has been held yet.

There also has not been a hearing regarding last year's appeal to the state tax commission by Trenton senior housing doing business as Adams park apartments.
