The highway patrol reports one person was transported by ambulance when a total of five people received minor injuries yesterday afternoon in a Mercer County traffic accident. It happened six miles east of Princeton.

Taken to Wright Memorial Hospital in Trenton was one driver, 69 year old Kenneth DeMoss of Princeton. His wife and two passengers were treated and released at the scene. They are 79 year old Carole DeMoss of Princeton as well as 74 year old Fred Gansemer and 72 year old Juanita Gansemer—both of Delhi, Iowa.

Also receiving what the patrol called minor injuries was the other driver: 46 year old Russell Jennings of Princeton.

An investigator reported DeMoss was northbound on Route C, approaching the intersection with Florence Avenue.

Jenning's car was westbound on Florence. The patrol said Jennings allegedly failed to yield and pulled out in front of DeMoss' sports utility vehicle. The crash has demolished both the S-U-V and car. All persons were using seat belts.
