A water outage and precautionary boil advisory have been announced by Trenton Municipal Utilities for an area of Trenton.

A water system upgrade is listed by T-M-U for work that begins at 8 o'clock Tuesday morning.

The water outage is expected to last two hours followed by the precautionary boil advisory until 2 o'clock Wednesday afternoon.

Affected are customers on East 10th Street between Avalon and Kumler; on Kumler between 9th and 10th; and all of the Walden apartment units.

Again water is to be off for these customers from 8 until 10 o'clock Tuesday; then there's the advisory to boil water used for cooking and drinking.
