A single vehicle accident yesterday morning two miles east of Gilman City injured a Bethany man.

23 year old Dusky Baker received what the highway patrol called moderate injuries and was taken by ambulance to Harrison county community hospital in Bethany.

The patrol said Baker was westbound on Highway 146 when his truck traveled off the north side of the road where it overturned onto the passenger side, ejecting the driver. The truck, used in making cement, came to a halt upright but in the ditch.

The truck was demolished. The patrol said Dusky Baker was not using a safety device.
