## Why Valdura Asphalt Paint "lives" longer

Because it is made from genuine 99.5% pure natural Gilsonite Asphalt — and asphalt lasts longer than other paint materials. Valdura is absolutely waterproof, and this gives it added life. Valdura will preserve and protect any surface you apply it to. It always looks well, too. It is excellent paint and you are sure to like it.

struction of old records  
organization of this church in Milan appears  
between 1875 and 1880. Because of the de-  
it is impossible to get a definite date.

For several years they worshipped in other churches; the M.E.  
South, Disciple and Presbyterian, but in 1893 under the pastorate  
of Rev. H. B. Collins, the present building was erected.

The history of this church has been similar to that of many  
others, there have been seasons of depression and of upbuilding  
through the years. Perhaps the greatest revival in its history was  
during the ministry of Rev. C. H. Brott, now our District Superin-

The membership reported last year was 316. The following list

# LOOKING BACKWARD

## TEN YEARS AGO.

Ten thousand people celebrated the 4th of July at Milan. A pageant of historical characters under the direction of Miss Fay Knight was a feature. John E. Swanger and Ralph Lozier, of Carrollton, were speakers. A baseball game with Unionville was enjoyed by our sports. A dance in the evening at the opera house completed the days enjoyment.

Red McKinistray and Marion Glidewell (Ted) were locked in the city bastille for being drunk and fighting. They secured a wrench and left that night without leaving their cards.

Gov. Elliott Major pardoned Newton J. Privitt who was sentenced by Judge John P. Butler to be hung for the killing of John W. Wolf. Gov. Dockery commuted his sentence to life imprisonment. He was paroled to his nephew, Amos Parton, of Colorado.

Died, William R. Eaton, "Uncle Billy," at his home at Wintersville, age 83 years.

C. A. House bought the stock of pianos formerly belonging to R. S. Moudy, deceased.

## FIFTEEN YEARS AGO.

Dr. Bennett Clark Hyde, convicted of poisoning Col. T. H. Swope of Kansas City, was sentenced to the penitentiary for life.

Jack Johnson, negro pugilist, whipped Jim Jeffries, heavyweight champion, at Reno, Nevada, July 4.

Milan merchants signed an agreement to close their places of business at 6 o'clock every evening except Saturday. Previous to that time they all remained open at night.

Mrs. C. A. Schoene and Miss C. A. were on a nice trip to Indiana, Illinois, and Colorado Springs, Colo.

Earl F. Nelson received a nice present in the shape of a pup—which was a cross between bull terrior and Scotch collie. Earl named the pup "Judge."

## TWENTY-FIVE YEARS AGO.

Marshal Cavenee and Sheriff Lee took into custody Sol Montgomery, Nova Parker and John O. Payne accused of breaking into the O. K. freight car at this place and stealing two cases of shoes.

Robbers entered the home of Joe Childers and family while they were all asleep and took money and jewelry and also the entire contents of the ice box.

The Methodist church building recently purchased by the colored people was destroyed by fire.

Virgil Conklin, of Carrollton, and Nova J. Winters, of Milan, were members of the state Democratic committee from the second district.

E. C. Cherry sold his residence property in the southeast part of town to Wm. Frazier.

Alva Boyd was proprietor of the Milan laundry.

Miss Bertha Noel, one of the teachers in the Milan school, resigned her position and accepted a position as teacher in Colorado.

James Cochran was studying pharmacy with the Kessenger-Schooling drug company.

Miss Blanche Calfee accepted a position with the Republican office.

Died, Mrs. Mary V., wife of W. W. Riggan, at her home at Harris.

## EUROPE WARNED TO MAKE PEACE BY COOLIDGE

### President Declares America Will Extend No More Fi- nancial Aid Until Cove- nants Of Peace Are Agreed Upon.

Cambridge Mass., July 3.—Near the spot where George Washington took command of the Continental army, President Coolidge called on the nations of Europe today to enter mutual covenants for their mutual security, pledging the moral support of the American government if they do so.

"While our country should refrain from making political commitments where it does not have political interests," he declared, "such covenants would always have the moral support of our government and could not fail to have the commendation of the public opinion of the world.

"Such a course would be sure to endow the participating nations with

### Mrs. E. L. Payne of St. Joseph Celebrated With Mian Friends

Mrs. E. L. Payne of St. Joseph, Mo., celebrated the Fourth in Milan and visited at the home of Mr. and Mrs. Marion Courtney from Friday until Monday. Mrs. Payne is a daughter of Jesse Mason and was reared in this city. The family resided in Milan eleven years, going from here to St. Joseph four years ago.

Mrs. Payne has numerous Milan friends who were pleased to meet her. Before leaving the city she called at our office and ordered the Home paper sent to her address so she may keep in touch with her Sullivan county friends and local events in future.

She left for her home in St. Joseph Monday.

## DEATHS FROM FIRE WORKS SHOW BIG DECREASE THIS YEAR

### Drownings and Automobile Accidents, However, Take A Larger Toll— Death List Will Total Be- tween 200 and 300.

Chicago, Ill., July 6.—Fourth of July celebrations and week-end outings took a toll of between 200 and 300 lives in the larger cities of the United States, a check-up by the United Press showed today.

Boston, where 43 members of a notorious night club who were dancing in the Fourth," were killed in a building collapse, led the casualty list.

Police reports throughout the country show that the number of dead due to fire works and explosives were much smaller this year, but traffic and drowning accidents showed an alarming increase.

Chicago was second to Boston with 30 dead, six from fireworks, 11 from drowning, 10 from automobile

## TENNESSEE EVOLU- TION TRIAL CREATES GREAT INTEREST

### John T. Scopes Charged With Teaching Evolution In Tennessee Schools In Violation Of the Anti- Evolution Law.

The pending evolution case in Tennessee is commanding general attention throughout the country. Tennessee has an anti-evolution law, and it is charged that Scopes, who was a teacher in a Tennessee school, had taught to his pupils the theories of evolution in violation of the law of that state. Scopes was first tried before a justice of the peace and was held for formal jury trial. The circuit or district court trial is now pending.

W. J. Bryan and others are representing the anti-evolutionists and Clarence Darrow, the noted criminal lawyer of Chicago, with other counsel are defending Scopes.

### Fire Alarm Called Force To J. W. Jennings Home Wednesday Morning

With the thermometer ranging above the 100 degree mark and no breeze in the air, it was an opportune time for a call upon the local fire fighters Wednesday morning. All of the regulars and many of the volunteers were on the scene about the same time the truck arrived in answer to the call from the residence of Jno. W. Jennings. The blaze had been discovered before it gained any headway and was extinguished by the occupants of the house before the department arrived, but the response to the call was a good example of volunteer efficiency.

Crop conditions in north Missouri are at present above the average and some crops are now ready to harvest. The oat crop is better than was expected six weeks ago, the hay crop is above the average, fruit and vegetables are doing well, and with exception of low bottom and flat lands, corn is thrifty and in good condition. A report just issued by the U. S. Department of Agriculture indicates favorable conditions over the nation. It follows:

Good financial prospects for farmers this year are seen by the United States Department of Agriculture, which says in its June report on the agricultural situation that

eration do with it? The answer is near. We must pass the treasure on, unshackled and to the next generation. The duty is to you and me and every one who loves this country and enjoys the blessings of liberty' under the American flag.

One thing, we must face with courage, good temper, and common sense. That question touching the assimilation of the foreign element of our population.

**Laws Need Regulation.**  
No doubt the laws should be better and our efforts at assimilation intelligent and efficient. We must not be misunderstood. To all eyes the good would come from other sources to help us preserve the foundation of our government and make a better country in which to live, and extend the heartiest welcome to all we should never yield the standard of judge of standards.

They would have the world to know that we are coming to this country with a solemn obligation and it is our duty that the obligation is met. There is virtue in the body of the law and we shall hand down to posterity those 'blessings of liberty' bought with the blood of the fathers of old and preserved by the hands of the finest example of freedom that the world has ever known.

## SON—RIGGINS.

Thyrn Pierson of Ridgeway, Mo., and Mr. Paul R. Riggins, of Unionville, Mo., were united in marriage at Unionville, Mo., at 12 o'clock, noon, Saturday, June 20, 1925, Rev. E. P. Reed of the L. E. church officiating, says the Unionville News.

Miss Riggins is a daughter of Mrs. W. W. Walker of Eagleville, Mo. She is now teaching at Ridgeway for several years, and it was while she was teaching there that she made their acquaintance. She is a graduate of Missouri University. Mr. Riggins is the elder son of Dr. D. M. Riggins of this city. He is a graduate of the Green City school with the class of 1916, and attended the Kirksville state college for several years. He has taught several very successful schools at different places.

The splendid young couple will make their home at Unionville next fall. Here Mr. Riggins is principal

County Bank of Brookfield, Mo., which failed about the first of the year. The amount of the suit is \$20,000, the plaintiffs alleging a surety bond for this amount was given them by the defendants.

## "WILD MAN" IS FOUND NEAR CHILLICOTHE

Complaints to Sheriff Mont Dowell from farmers in the north precinct of a wild man having been seen prowling about a number of premises in that neighborhood since last Saturday, resulted yesterday afternoon in Sheriff Dowell and his deputy, Lewis Mast, going on an investigation trip.

They searched the woods and patches of brush where the wild man had been seen a number of times thoroughly without any result.

Finally they located him sitting under the shade of a big tree on the highway within half a mile of the Olive Branch church. The man's face was covered with a 2-months' growth of black beard, his clothing torn and old. The open shirt bosom revealed that his breast was covered with a growth of hair fully six inches long and badly matted. Further examination showed his body to be entirely covered with hair.

His face resembled that of a monkey, and Sheriff Dowell said that had he appeared hatless and naked in that vicinity, he could in reality have been mistaken for a creature half monkey and half man.

He was brought to town and placed in the city calaboose over night, and this morning Chief Dorney issued an edict banishing him from the city.

The man, who is 57 years of age, was very reticent, and seemed to be suffering from mental aberration, but admitted that he had been in the vicinity of Alton, Mo., in the southern part of the state two weeks ago when workmen on the highway claimed to have seen a wild man skulking around that vicinity a number of times. The description given by workmen tallied with the appearance of the wild man in the north precinct. One man claimed he came within 50 feet of the man, who ran away, walking upright like a huge ouraug-outaug. *Chillicothe Tribune.*

Fall also is held. The conduct of the oil lease and Hawaiian contract negotiations with the Doheny interests, while former Secretary of the Navy Edwin Denby was declared to have been "passive throughout all the negotiations and signed the contracts and leases under misapprehension and without full knowledge of the contents of the documents." It is held that the work in Hawaii was kept secret in order that Congress and the public should not know what was being done and not for military reasons.

## 300 MEN LAID OFF BY SOUTHERN PACIFIC

Houston, Texas, July 1.—Southern Pacific railroad shops today laid off 300 workers. The lay-off affected the night and day shifts about equally.

Lack of material was given as the reason for the action.

The appearance of two of C. Girardeau's bathing beauties in the streets of our modest little village on last Saturday afternoon, undressed in one piece bathing suits, as a business for some thirty minutes, during which time several accidents were narrowly averted. Two or three citizens were temporarily injured and traffic seriously retarded. Photographer A. F. Williams is said to have narrowly escaped falling from the second story of his dwelling when the major portion of his body protruded on the outside of the window. He was saved only through a timely yank from the female member of his household. County recorder, H. Schrader, is suffering from a wrench back and J. H. C. Kerstner, deputy county collector, a severe nervous shock. Frank Drum, prominent farmer, living north of town, arrived home too late to feed. Plans for raising funds for a public swimming pool are now under discussion, and liberal contributions will doubtless be forthcoming.

What ails him.

It's a good thing for the fish that folks don't spend as much time angling as they do wrangling.

It's hard to be a leader in America. You can't tell which way the darned crowd's going.

### WILD MAN IS FOUND NEAR ALTON, MO.

A 'wild man' has been seen in the vicinity of Alton according to the Alton South Missourian-Democrat. The first report received of the "wild man" was from the state highway gang northeast of Alton. They said "it" walked upright like a man. Lewis Bates, who lives on the Greer road, northeast of Alton, said he was riding a mule and came up within 50 yards of the "wild man" and could see him plainly. He said "it" looked like an animal, was rather brown, with hair all over its body and had a face something like a monkey.
